NUHW
NATIONAL UNION OF HEALTHCARE WORKERS

OUR HOSPITALS ARE
NOT WALL STREET
BANKS!

Join Nurses, NUHW members and our allies as we stand up to Kaiser's corporate greed and stand up for our patients and our benefits.

Bernard Tyson, President and COO, is the second-highest ranking official at Kaiser. Last year he made over \$2.3 million in compensation, while trying to cut our health benefits, freeze our pension and eliminate our retiree healthcare. On his watch, Kaiser has raised premiums on consumers while short staffing mental health services and making \$5.6 billion in profits since 2009.

On January 26, Bernard Tyson will be speaking at the Hyatt Regency in San Francisco as a "Dean's Distinguished Speaker". UNITE HERE, the union of hotel workers, has called for a boycott of Hyatt hotels for their unsafe working conditions, low wages and union-busting.

Join us and help tell Bernard Tyson that he and Kaiser Permanente need to put patients and caregivers before corporate profits and fat cat executive salaries.
