Contribute and help build our union

“It’s always been important to pay dues and have a strong union. But it’s even more important that our money goes to the right place.

SEIU officials have wasted millions to enrich themselves and retaliate against healthcare workers, and we don’t want to give them another cent.

We want to use our money to fight for better healthcare for our patients and better jobs in our communities. We’re signing up for monthly contributions to build our union, by healthcare workers and for healthcare workers. NUHW is the union we trust.
