

*Daughters of Charity, Sutter, and independent hospital and nursing home workers file for NLRB elections... CHW, Kaiser, and others will follow soon—*

# We're joining NUHW!

On Feb. 2, Nearly 9,000 healthcare workers at 62 facilities filed petitions to join NUHW and get rid of SEIU. More are joining with us every day to keep our union strong and democratic.

SEIU's national officials are in a panic. They're still trying to stop us from having a fair vote because they want us to keep sending them \$30,000,000 a year for nothing in return.

They tried to cut a secret deal with Daughters of Charity to lock us into a bad contract so we couldn't leave SEIU. They've suspended bargaining with other employers and cancelled arbitrations without notice. They've even tried to remove our elected stewards who are supporting us.

UHW was once a member-led union, where we had the right to vote and make our own decisions. But the UHW constitution that protected our rights was suspended by Andy Stern's trusteeship. Now his trustees want to make all the decisions for us.

**That's not the union we want to be part of.**

## **Our future is with NUHW.**

- We want a union that is run by healthcare workers and listens to us.
- We want a union that fights for members and advocates for patients.
- We want a union with the experienced leaders who know how to bargain and organize.
- **We Want NUHW!**

**To keep our union strong in NUHW, talk with your steward.**

**Call 1-866-968-NUHW or visit [www.nuhw.org](http://www.nuhw.org) for more information.**

NATIONAL UNION OF HEALTHCARE WORKERS
