

# **UHW-SEIU officials are laughing all the way to the bank—with our money**

Every year, UHW-SEIU members pay more than \$90 million in dues—including \$30 million straight to Washington, D.C. where we never see it again.

## **How does SEIU spend so much money?**

- Nearly \$1 million just for SEIU's top four officers
- More than \$100,000 to promote SEIU President Andy Stern's book, so he could pocket a \$175,000 advance from the publisher on top of his \$275,000 salary
- Tens of thousands for private jets and four-star hotel accommodations for SEIU officials while SEIU members in California are facing layoffs, furloughs, and wage cuts.
- Union-paid jaunts to London, Tokyo, Amsterdam, Moscow and Switzerland for top officials, including Andy Stern's trip to the Olympics last year in Beijing.

**We need a union that respects our work and our dues.**

## **NUHW is the solution.**

In NUHW, dues will be 25 percent lower and elected healthcare workers will oversee our union's spending. We can make sure our money is used to strengthen our union and win improvements at work. More than 100,000 SEIU members have already petitioned to leave SEIU behind and join the National Union of Healthcare Workers.

**Lower dues. Higher standards. Elected leaders we know and trust.**
